# What will you be doing this December 25th?

---

Care doesn't stop  
for Christmas

**Support care workers  
in your community**

*For carers working in our community, Christmas Day is just a normal day. Rather than sitting down to dinner with their family, these community superstars will be working to provide dignity and care to vulnerable people in their homes and residential centres.*

*It is important carers receive the respect they deserve too. That's why I support UNISON's campaign to ensure all carers are paid a real living wage of £8.45 per hour and have fair employment conditions.*
